Hello Liz,

We do ask that government agencies get a paid subscription. I have given you two-month subscription so that you can try the features of Earth Point.

If you are using the Excel to Google Earth utility to map a list of coordinates, or the Batch Convert utility to convert them, I am happy to look at your first spreadsheets to ensure that you get the best possible map.

Please let me know if I may be of further assistance.

Good luck with all of your projects.

Bill Clark

Subject: Earthpoint Access

Hi Bill,

My name is Liz and I'm a project manager in the superfund program in Denver, CO (Region 8). I am working on collecting ownership information for mine claims in the Silverton, CO area to get consent for access to collect water quality samples. I'm curious if this application would be helpful in determining ownership.

Does EPA fall under the governmental agencies that can receive access to the website? Thank you for your assistance.

Liz
